APPROVAL OF MINUTES. Minutes from the February meeting were approved.

INCIDENT STATISTICS AND REPORTS To follow up the January discussion of an incident that occurred in December involving a student who was splashed by “FreezGard” while filling a drum, Michael Mayers reported that the ODOT facility where the FreezGard was obtained was a new supplier for the material. ODOT staff helped the student set up the hose to fill the MU-owned barrel, and the hose did not fit properly. The student cleaned up with soap and water.

It was suggested that Printing and Mailing personnel receive Safety In Motion (SIM) training as provided by SAIF in order to prevent back strain injuries.

Further information is needed about the mold inhalation incident – is it common to find mold on hazelnut sample materials? Was respirator protection offered, used, trained?

FIRE/LIFE SAFETY INSPECTIONS Scheduled inspections listed in the agenda.
