4. Accident & Inspection Reports

4.1 Accident Reports

There was an idea presented to address spills in custodial closets that could help prevent slips and falls by putting down a spill pad or other absorbent material.

There was a question on the exposure from an animal carrying disease. Multiple stakeholders including the Biosafety officer and Biosafety Committee have come together to address current procedures and improve training to prevent further exposures.

4.2 Fire Safety Inspections

Fire extinguisher training will be offered soon. There were a few dorm fire alarms from burned cooking. CFD has adopted a more structured approach to odor/smoke response calls, which will result in a full incident response.

4.3 Facilities Monthly Life/ Safety Work Orders/ Report

Burning rubber smell in ALS. Turned out to be welders in the basement. Empty drain traps needed to be refilled to prevent odors. There was a source in Magruder that was dispensing scalding hot water and is being worked on.

Dump truck in Graf parking lot leaking oil. Spill was contained and contractor was contacted to remove vehicle for service.
