5. Accident & Inspection Reports

5.1. Quarterly accident data summaries were discussed; Optimum flow of information would be disseminating to the departments and college safety advisory committees for local control follow-up.

5.2. Advocate accident management system will be replaced by Risk Connect. However, the contract for Advocate Accident Risk Management has been extended through next year; Risk Connect will be the campus’ new tracking system and with new capabilities for analyzing data trends; Safety Culture Task Force recommendation will be to establish department safety contacts and safety advisory committees who can directly review and address accident causation. Timeline of implementation will be shared once details are finalized.
