

General

- EH&S has been **established** to provide consultation to OSU administration, faculty, staff and students in the areas of environmental protection, employee health, and employee/facility safety
- EH&S is **located** at the **Oak Creek building**, corner of 30th and Western
- It is OSU policy that all **employees and students** conduct their work and activities in a **safe manner**
- EH&S is responsible for developing, coordinating and promoting the OSU safety program
- It is **NOT** the responsibility of EH&S to provide a safe and healthful work environment; this responsibility has been assigned to faculty and staff administrators for the areas under their control

Responsibilities

- Acceptance of safety responsibility is the cornerstone of the OSU safety program
- EH&S is responsible for monitoring and ensuring, as far as reasonably possible, the University's compliance with local, state, and federal safety and health regulations
- **EH&S provides the following safety services**
 - hazardous waste disposal
 - industrial hygiene surveys for toxic vapor, gas, dust, or noise
 - fire and safety inspections
 - fire extinguisher inspection and maintenance
 - coordinating fire and building evacuation drills
 - laboratory fume hood inspections and tests
 - chemical carcinogen registration and use approval
 - asbestos identification and monitoring
 - hazard communication and MSDS information
 - prescription safety glasses
 - personal protective equipment selection
 - respirator issuance and fit testing
 - accident investigation
 - accident experience record keeping
 - safety complaint investigation and resolution
 - hazardous chemical emergency response and spill clean up
 - safety training
